

LDAP and Directory Services: Essentials Ed 2

JAVA

DURATION

2 Days

MODULES

4 Lectures

COURSE CODE

—

Course Overview

Reduce your organization's operating and ownership costs by implementing LDAP standard directory solutions that easily integrate with the Oracle Fusion Middleware platform. You can implement the solution using Oracle Unified Directory or Oracle Internet Directory. They store user identities in the form of entries, and provide a highly flexible and scalable replication environment to back up data.

What You Will Learn

Course Introduction

Reduce your organization's operating and ownership costs by implementing LDAP standard directory solutions that easily integrate with the Oracle Fusion Middleware platform. You can implement the solution using Oracle Unified Directory or Oracle Internet Directory. They store user identities in the form of entries, and provide a highly flexible and scalable replication environment to back up data.

Key Topics Covered

- LDAP and Directory Services
- Essentials
- JAVA concepts and practices

Course Structure

This 2-day course includes comprehensive coverage of:

- Day 1: Introduction to LDAP and Directory Services: Essentials
- Day 2: Core Concepts and Architecture

What You'll Learn

- Understand the fundamentals of LDAP and Directory Services: Essentials
- Apply industry best practices and standards
- Gain hands-on experience through practical exercises

- Develop and deploy Java applications
- Prepare for Oracle certification exams (where applicable)
