- Password Policies
- Administrator Password Management
- User Account Locking
- Password Reset Process
- User Password Changes Audit Report
- Notification Templates
- Summary

Integration and Interfaces Overview

- Objectives
- Agenda
- Integration: Overview
- Agenda
- Web Services in Oracle Applications Cloud: Overview
- Web Service Life Cycle
- SOAP Web Services: Categories
- SOAP Business Object Services: Example
- SOAP Web Services: Industry Standards
- Invoking SOAP Web Services
- ERP Integration Web Service
- Inbound and Outbound Data File Encryption Using ERP Integration Service
- ERP Object Attachment Service
- Agenda
- REST Architecture
- REST API List
- REST APIs: Access Options
- REST API: HTTP Status Codes
- REST API DETAILS: Purchase Orders
- Agenda
- ADFdi: Overview
- ADFdi: Installation
- ADFdi: Spreadsheet Use
- ADFdi Template Examples
- Agenda
- Procurement File-Based Data Import (FBDI)
- File-Based Data Import
- File-Based Data Import Process: Supplier Import
- File-Based Data Import Process
- Dealing with Errors
- FBDI Template Examples
- Agenda
- Reporting Tools
- Summary

Modify and Expand Overview

- Objectives
- Agenda
- Overview of Modification and Expansion
- Personalization
- Runtime Modifications and Expansions
- Tools for Modification and Expansion
- Page Modification Examples

- Branding Modification Examples
- Objects Modification Examples
- Security Modification Example
- Business Intelligence Modification Examples
- Help Modification Examples
- Runtime Modifications and Expansions
- Modification Layers
- Available Modification Layers
- Agenda
- Modification Life Cycle
- Managing Sandboxes
- Metadata Sandbox
- Flexfield Sandbox
- Moving Modifications
- Agenda
- Modifying Pages
- Page Composer
- Page Composer Views: Design View
- Page Composer Views: Source View
- Page Composer Usage
- Agenda
- Flexfields for Additional Attributes
- Descriptive Flexfields
- Key Flexfields
- Agenda
- Navigator and Springboard Modification
- Select Home Page Layout
- Structure
- Agenda
- Help Modification
- Agenda
- Creating and Editing Reports
- Modifying BI Publisher Reports
- Modifying BI Publisher Reports: Option 1
- Oracle BI Publisher: Layout Editor Overview
- Template Builder for Word
- Template Builder for Word: Overview
- Modifying BI Publisher Reports: Option 2
- Modifying BI Publisher Reports: Option 3
- Modifying BI Publisher Reports: Option 4
- Oracle Transactional Business Intelligence: Overview
- BI Composer: Overview
- Using the BI Composer
- Oracle Transactional BI Answers
- Oracle Transactional BI Answers: Analysis Editor
- Dashboards Overview

- The Dashboard Builder
- Custom Infolets: Overview
- Prerequisites for Creating Infolets
- Creating Infolets
- BI Mobile Application Designer Features
- Summary

Approvals Management Overview

- Objectives
- Agenda
- Approval Management: Overview
- Approval Workflow: Overview
- Approval Management
- Approval Management: Procurement Offering
- Approval Management: Manage Requisition Approvals
- Approval Management: Purchasing Document Approvals
- Approval Management: Oracle BPM Worklist
- Agenda
- Key Concepts: Stages
- Key Concepts: Participants
- Key Concepts: Rule Sets and Rules
- Key Concepts: List Builders
- Agenda
- Manage Task Configurations
- Assignees Tree
- Assignees
- Rule Sets
- Defining Rule Settings
- Defining Rules
- IF Component
- THEN Component
- Rule Example
- Voting Regime
- Deadlines
- Notifications
- Access
- Configuration
- Manage Approval Groups
- Manage Approval Groups: Static
- Agenda
- Administration Tasks: BPM Worklist Administration
- BPM Worklist Administration: Monitor Notifications
- BPM Worklist Administration: Create User View
- BPM Worklist Administration: Create Vacation Rules
- BPM Worklist Administration: Define Delegation Rules
- Summary

- Objectives
- Agenda
- What is Functional Setup Manager?
- Functional Setup Manager: Overview
- Job Roles
- Terminology
- Implementation Options
- Agenda
- Maintaining Setup Data
- Implementation Project for Ongoing Maintenance
- Creating an Ongoing Maintenance Project: Adding Tasks Manually
- Adding Tasks Manually
- Creating an Ongoing Maintenance Project by Selecting an Offering
- Removing Tasks
- Ongoing Maintenance Tasks: Key Examples for Procurement
- Accessing the Maintenance Tasks
- Ongoing Maintenance Example: Payment Terms
- Summary
